Dear Parents,

Since the beginning of this scholastic year, I have been receiving several complaints from escorts regarding transport. They are complaining that in the morning certain students are not being ready, and this is causing unnecessary delays in the school transport to arrive on time.

More worrying is the fact that, in certain cases during the afternoons, escorts are not finding parents/guardians waiting for their children, but instead some of their younger siblings. There were cases where the driver had to wait for about 5 minutes to pick up the child.

This is totally unacceptable and I am kindly asking you for your fullest cooperation. In instances where no cooperation is found, we will have to take further action.

Best regards,

George A. Said-Zammit
Director Student Services
