Dear parents/guardians,

The Wardija Resource Centre Gardening Unit will once again be planting its 'Herb Garden'. This project will entail the planting of a variety of herb saplings. These will include sage, mint, marjoram, rosemary and many more.

This 'Herb Garden' will create a pleasant space rich in fragrances, textures and flavours for our students and school community as a whole to savour. And of course, it will give our students the opportunity to grow more herbs over the coming years and will allow them to explore producing various products and recipes with the use of herbs.

Planting will be carried on **Wednesday 22nd March** between **9:30-12:30**.

We would therefore like to invite you to come along and work with us to bring this exciting project to life!

Thank you.
