

22nd March 2018

23/17-18

Dear parents/guardians,

The Wardija Resource Centre has been investing in strengthening its Pet Therapy branch over the last few years and thanks to these efforts, we have seen an encouraging response from students during these sessions.

In order to further develop these pet-related initiatives and to disseminate the knowledge we are gaining as well as sharing of our good practices with you as a community, we will be organising an educational session in order to provide educational information about domestic rabbits and the benefits these creatures can offer to youngsters with special needs.

This session is being organised in collaboration with the Malta Rabbit Club and is going to be held on **Friday 13th April 2018 at 9:30 am**. The session will include an informative talk, distribution of notes, a small giveaway as well as a vast selection of rabbit breeds who will join us for the day.

The event is open to the public so feel free to bring anyone you feel may benefit along. Kindly let us know if you will be attending this event (and how many people) by not later than Friday 06/04/2018.

We invite you to attend and learn more about this innovative therapeutic approach that most our youngsters stand to gain so much from.

Sincerely

Nicholas Agius
Head of Resource Centre
